

# TNI Newsletter

## What's new this week at TNI...

The first thing that deserves announcing is ... there's another birthday girl amongst us this week! So I would like to wish Judy Frederick a Happy Birthday on behalf of everyone at TNI. Judy is celebrating her birthday tomorrow, September 28th.

### In Salluit...

...well, first of all, Eva isn't back in Salluit yet, but as soon as I find out when she is supposed to return, I'll let you all know. In the meantime, lets hope her health is treating her good.

Also, the tower guys are done building the foundation, but weren't able to put the tower up because they haven't received the safety equipment yet. They are now in Kangirsujuaq building the foundation, and should be able to put up the tower once the foundation is done.

### In Kuujjuaq...

...The Kuujjuaq crew will be busy filming all week. The Qanuippitaa? should be arriving in Kuujjuaq today, Sept. 27th, or tomorrow Sept. 28th, and the crew will be there. They should be on the boat filming all week.

### In Puvirnituk...

...Bobby Kenuajuk is still looking for an assistant to work with. So the posting for that job is still open!

Also, Bobby celebrated his 5th year with TNI on September 14th. Congratulations Bobby for 5 good years of hard work. Cheers to many more to come!

Bobby should be working on interviews all week in order to finish one of the programs.

### In Dorval...

...There is nothing new happening this week in Dorval. But there are a few announcements.

I will mention that Julie Grenier and Akenisie Qumak's filming in Ottawa went well.

And, the final filming for the dog killing production on Saturday Sept. 25th went very well.

And in connection with the Dog Killing production, we just last week found out what

the REAL title to the movie will be ... **"Echo of the last howl"**. So we no longer need to call it the Dog Killing Production.
