

# TNI Newsletter

## The news this week at TNI.

There isn't all that much going on this week at TNI, but I'll start with a couple announcements. First, I'll take the time to remind everyone that October 11th is a holiday, so don't come to work on that day!

Also, I wanted to mention that on August 30th, Lizzie Saviadjuk celebrated her 11th year as a TNI employee. And on September 1st, Joanassie Koperqualuk celebrated his 10th year as a TNI employee! On behalf of everyone at TNI, I would like to congratulate both of you!

On another note, I went to see Eva on Friday, October 1st, she is doing good. She said she was slowly recovering, and had more doctors appointments, but she'll try to go home as soon as possible.

Claude Grenier, with the very much

appreciated and extensive help of Joanassie Koperqualuk, is just finishing the final preparations for the TNI Annual General Meeting, to be held in Salluit on October 13th and 14th 2004.

The posting for the Television Producer and coordinator in Kuujuaq ws officially closed on September 30th 2004. So the next step will be to look through all that applications and select some candidates for interviews. Claude Grenier and Janet York should be working on this starting today, Monday October 4th.

The "Tower guys" as they are now formally known, have finished building the foundation in Kangirsujuaq. They will be working in Kangirsuk and Aupaluk this week. Both foundations in both communities should be finished by the end of the week.

Next, Julie Grenier, Akenisie Qumak, Guy Fradette and Jean-Nicholas Orhon left for Ottawa on Sunday, October 3rd. They will be filming at the ITK office, and on Parliament hill both Today and tomorrow. They will be returning to Montreal on Tuesday October 5th, in the evening. Once this filming is done, the footage will be ready for editing.

Finally, Sammy Duncan is in Halifax this week for an APTN meeting.

Have a good week everyone!  
And dont forget to laugh!
